

## Discovery Academy of Lake Alfred

### Student Achievement Information

We are very proud of our students' achievements for the 2008-2009 school year. We increased our School Grade to a "B" and made Adequate Yearly Progress (AYP) by making significant gains in Reading and Math. As you will see below, only a few middle schools earned that distinction, and those that did are schools of choice. For comparison purposes, the following chart lists school grades and AYP status for all middle schools in Polk County.
